The Board May Also Deliberate The Application, Decide And Conduct A Final Vote At This Time.

7.I. PL2021-0096MSP; 1072 Watson Rd; Proposal To Allow For Seasonal Tent Use And Expand The Gravel Parking Lot

The public hearing opened at 2:02 PM

Applicant: Andrew Teich and John Turner, owners of the property, addressed the board. They have run the bar for many years and have always had a seasonal tent. The request is to leave the 50 x 100 entertainment tent up that was approved and a 20 x 30 tent for merchandise sales annually and modifications to the parking lot. They have removed the dead trees and brush and leveled the area for parking.

D. Trefethen clarified that this meeting is more for the combination of the parking as the tents would just be an administrative approval. The outdoor loudspeaker and assembly permit would need to be applied for annually. A. Teich noted that the capacity for the building is 99 and the parking lot has never been at full capacity. The small area in front of the building is paved and the smaller tent will be on top of that. Both parcels are being used with expansion of parking.

Chair W. Anderson noted that with the expansion any drainage changes would need to be under the current rules. The water needs to be trapped before going to Watson Road. There is a catch basin on the corner of Watson and Rte 3 but that is not for the property, but the right of way.

There needs to be one on the property before heading to the road. Steve Smith and Associates was hired to do a full site assessment and will include the water management plan. Chair W. Anderson wants a plan to show where retention will be.

The public hearing closed at 2:18 PM

D. Trefethen suggests tabling the request until the plans are submitted but could do an administrative review for the tents. A. Teich noted there is existing drainage in the parking area that goes from one edge, underground to the other edge of the property. D. Trefethen suggests putting in silt sock to delineate parking spaces and something at the entrance such as hay bales as well as continuing with the cleaning.

Chair W. Anderson also clarified that the easements need to be shown on the plan.

D. Trefethen asked if there were any complaints over the last few years and there were none to the property owners' knowledge.

Motion to table the application for the expansion of the parking until an updated plan is submitted showing drainage improvement. For time being the applicant will install silt sock where possible and other remedies near the entrance while waiting of the full site plan, the outdoor sound allowed Sunday-Thursday until 10 pm and Friday and Saturday until 11 PM with the Outdoor Loudspeaker approval from Licensing made by D. Trefethen, T. Baker seconded. All voted in favor and the applicants in agreement as well.

A. Graton mentioned the painting of the road with tire marks. J. Turner said most of that is from Motorcycle Week but he can put signs up if needed. A. Graton informed that there are cameras in that area now. Chair W. Anderson noted that they just painted the roads and they will be slick for a while.

It was noted that the applicant let staff know when the silt sock has been put in and they will go look at it.

8. OTHER BUSINESS

9. ADJOURNMENT

The meeting adjourned at 2:22 PM

Respectfully,

K. Graham
