Atty. Phil Brouillard addressed the Council regarding the no parking proposal n North Street. Eliminating parking on the side that is proposed would be devastating to the owners of 35 North Street. No accidents or dangerous incidents have been reported to the Fire or Police Depts. He suggested to have one side of North

Street no parking and see how that works. Atty. Brouillard feels it's not necessary at this time to block parking. William Mudge, the property owner, gave a brief history of his property which was built in 1890. He feels when North and Sheridan Streets are torn up for the sewer replacement it would be a good time to move the sidewalk across the street.

Charlie St. Clair addressed the Council. He asked if the solid waste proposal will have a public hearing and was told yes. He also is in favor of Motorcycle Week vendor licensing fees being increased. He suggested just a flat rate of \$600 and to have that include the Friday prior to the start of Motorcycle Week. 21.D. Fire Department SAFER Grant

Chief Beattie addressed Council. This grant is for four additional fire fighters for three years. There will be minimal fiscal impact. The department received a grant in 2013 but was not successful in the last round. Chief Beattie mentioned they have a grant writer that is assisting the department. He is looking for support from the community and Council, and to start planning now how years from now will be funded so it will be in place. As the current grant funded portion leaves, the new person becomes the grant funded person. Any money not spent rolls over so there could be some extra money toward the end to draw the term out a bit longer. Councilor Cheney discussed a potential new program to save the ambulance for major calls. The area is going to continue to grow and services should be ready for that. Councilor Cheney is behind the Fire Department 100%. Chief Beattie stated that these additional firefighters will enhance our firefighting capabilities.

The sidewalk can't go to the other side due to topography. North, Sheridan and Belvidere Streets are the busy through streets. There are two options: either make no parking or keep it the way it is. More traffic has been causing an increase in complaints. Councilor Cheney suggested no parking sunset to sunrise. Councilor Hamel suggested making the street one way and thinks more discussion is needed. Councilor Haynes thinks it's a hazard in either direction and agrees with looking into the one way option. Public Works Director Anderson brought up the section on Pleasant Street that is one way and the complaints that they get regarding that. City Manger Myers suggested taking a vote because just tabling the item means additional information is needed and he is unsure he can give more information. If Council wants to look at other options, he suggested taking action on it. Councilor Felch feels making modifications to just a section of North Street is foolish. Councilor Felch, Councilor Cheney voted for; Councilor Lipman Councilor Haynes Councilor Hamel voted against. The motion failed 3-2.
